

CHINKI RAJ

8709394736 | chinkiraj0013@gmail.com | [Linkedin](#) | [GitHub](#)

EDUCATION

Heritage Institute of Technology, Kolkata

West Bengal, India

B.Tech in Computer Science & Engineering (AI & ML) — CGPA: 7.8/10 Expected Graduation: June 2027

SUMMARY

Artificial Intelligence & Machine Learning undergraduate with hands-on experience in Machine Learning, Deep Learning, Computer Vision, and intelligent system development. Skilled in building AI-driven applications using Python, OpenCV, PyTorch, and modern ML frameworks.

Previously worked with an AI interview-agent startup as a Growth Intern, contributing to system optimization, feature enhancement, and user engagement management. Strong interest in AI research, Computer Vision, scalable intelligent systems, and Large Language Models (LLMs).

TECHNICAL SKILLS

Languages: Python, Java, PostgreSQL, C

Core Concepts: DSA, OOP, DBMS

AI/ML: Machine Learning, Deep Learning, Computer Vision, NLP, Large Language Models (LLMs)

Libraries/Frameworks: NumPy, Pandas, Scikit-learn, PyTorch, OpenCV, Flask

Tools: Git, GitHub, VS Code, Google Colab, Jupyter Notebook

PROJECTS

Touchless VFX Controller System | *JavaScript, HTML5, MediaPipe, Computer Vision* | [GitHub](#)

- Developed a real-time gesture-controlled visual effects system using Computer Vision and browser-based rendering techniques.
- Implemented hand tracking and gesture recognition using MediaPipe Hands and webcam input.
- Designed interactive visual effects including fire, lightning, and particle-based rendering systems.

Credit Card Fraud Detection System | *Python, Scikit-learn, Machine Learning* | [GitHub](#)

- Built a Machine Learning-based fraud detection model for identifying anomalous financial transactions.
- Performed data preprocessing, feature engineering, and classification model implementation using real-world datasets.
- Explored anomaly detection concepts and optimized model performance through analytical techniques.

EXPERIENCE

Growth Intern

July 2025 – Nov 2025

AI Interview-Agent Startup

Remote

- Contributed to system enhancement, feature optimization, and usability improvements for AI-driven interview solutions.
- Worked on resolving platform-level issues and improving user engagement and workflow efficiency.
- Collaborated in fast-paced product development environments involving AI-based systems and intelligent automation tools.

ACHIEVEMENTS

- Finalist at Cognizant TechnoVerse Hackathon 2026 and Top 15 Finalist at HackSky Hackathon, MIT Bengaluru.
